

## *A Purpose*

*Oh! Show me dear LORD that I may see  
Do you really have a purpose for me  
Amid the sin the pain the strife  
What is your purpose that should fill my life*

*When I'm distant from you all is blight  
Fear and discourse blackens as night  
In times of doubt when my thoughts run free  
It's hard to see there's a purpose for me*

*Your purpose was predestined before time began  
To live on this earth as God became man  
But for this purpose LORD you came to be  
For the purpose of love you were nailed to a tree*

*The purpose of God can never be contravened  
For the purpose of sanctification He called us to be  
We must do what God has purposed within our own hearts  
Or from His Holy word will not our purpose depart*

*For this purpose you came that I might be set free  
If I'm called according to your purpose then what shall it be  
I know you love me LORD and that will never change  
But without you in my life all would be vain*

*So what is my purpose to you LORD I plead  
How can I determine what is purposed for me  
My son, My son, My purpose is free  
The only cost is you must believe*

*Inspired by My Lord and Savior Jesus Christ  
To him I give all the Glory Honor and Praise*
