

AN ABORTION SURVIVOR'S STORY

**YOU CAN CALL IT
ABORTION
BUT IT'S STILL
MURDER**

In September of 1975, a woman discovered that she was pregnant, and things were very difficult for her as she was raising two sons, ages 6 and 15 yrs. old. Their father had walked out on them and refused to help care for the boys financially, or in any other way. The only alternative for this woman, it seemed, was to abort this unexpected baby. After all, she could barely afford to feed the children that she had.

Between the months of September, 1975 and January 1976, this woman had three therapeutic Abortions in an attempt to rid herself of the unborn baby. These abortions, also known as a "Salting Out Procedure", are performed by injecting a very large syringe into the woman's abdomen, removing a certain amount of amniotic fluid out of the womb and then injecting three times the amount of saline back in; thus, burning the baby out!

For reasons that only God knows, these abortions did not take, and on April 21, 1976, two months premature, her baby was born. The child was perfect and healthy, weighing four pounds and five ounces.

On March 16, 1977, the mother died less than a year after her baby girl was born. After the woman's death, the infant's father and paternal grandmother took custody of the baby and her two brothers. As this girl grew up, her father told her about the three abortions she had undergone in her mother's womb but this little girl never believed him, as she assumed that if a baby is aborted, he or she could not possibly survive.

AN ABORTION SURVIVOR'S STORY

**YOU CAN CALL IT
ABORTION
BUT IT'S STILL
MURDER**

In September of 1975, a woman discovered that she was pregnant, and things were very difficult for her, as she was raising two sons, ages 6 and 15 yrs. old. Their father had walked out on them and refused to help care for the boys financially, or in any other way. The only alternative for this woman, it seemed, was to abort this unexpected baby. After all, she could barely afford to feed the children that she had.

Between the months of September, 1975 and January 1976, this woman had three therapeutic Abortions in an attempt to rid herself of the unborn baby. These abortions, also known as a "Salting Out Procedure", are performed by injecting a very large syringe into the woman's abdomen, removing a certain amount of amniotic fluid out of the womb and then injecting three times the amount of saline back in; thus, burning the baby out!

For reasons that only God knows, these abortions did not take, and on April 21, 1976, two months premature, her baby was born. The child was perfect and healthy, weighing four pounds and five ounces.

On March 16, 1977, the mother died less than a year after her baby girl was born. After the woman's death, the infant's father and paternal grandmother took custody of the baby and her two brothers. As this girl grew up, her father told her about the three abortions she had undergone in her mother's womb but this little girl never believed him, as she assumed that if a baby is aborted, he or she could not possibly survive.

The truth only came to this girl when she was eighteen years old, married and approximately five month pregnant with her first child. This young woman needed and soon obtained her mother's medical records from the hospital that had treated her. Imagine her utter shock as she read about how her mother tried to terminate her unborn child three times! As this young woman read her medical documents, the new life inside of her was stirring, and kicking as if to say "Mommy, please don't get any ideas.

Today this girl is 25 years old and is raising a family of her own. She is healthy and normal in every way, with no physical deformities of any kind!

I am the child I have been writing about. My mother had No Right to try and Abort me, no matter what the circumstances were, and no matter how inconvenient her pregnancy was! And if she was here today, I'm sure she would agree.

Life is too precious to simply throw away. Now I can speak out against Abortion from the baby's perspective. **ANY BABY WOULD CHOOSE LIFE!**
