The Lord has given you a Precious child for you to love and treasure. Congratulations! How Wonderful!

I know that Jesus is watching over you to help you raise this child.

Babies are really very sturdy and you don't have to worry so much when you handle them. We catch on quickly on how to take care of our babies. It isn't as hard as you might think.

The most important thing is that you surround him or her with your love and to ask the Lord to give you a peaceful atmosphere to bring your child up in. And to keep asking for Jesus' help throughout their childhood.

My prayer for you is that you continually share Jesus' love with your child and tell him or her how very much He cares for them. And to bring your child up in the Love and Admonition of the Lord.
