

"Be faithful unto death, and give thee a crown of life"

In his first article "The Mystery of the Four Horsemen of the Apocalypse John the Evangelist" I deciphered the 1-8 sixth chapter of the history of education, development and the impending dissolution human society. In the second article "Role of seraphim, cherubim and Apocalyptic animals in the formation of religion" showed that the relationship with mankind has with God are in close proximity to the four very strange animals that are spiritual religious dignitaries who can speak human language and freely communicate with people.

When I wanted to continue decoding and again read Revelation, I was a little scary, but what if all these events come true. If so, on what basis, what have we done to God, do it all so seriously. Let's analyze the situation. If you think about it after the creation of conditions for a hundred years of environmental catastrophes on our beautiful planet, in practice we have already entered a phase of self-destruction, in the broadest sense of the word. Together with the description in the Apocalypse of St. John the Divine destruction of human civilization, and almost all of humanity must also be information in the destruction of the inhabitants of our planet.

In this article I will consider the message seven churches of Asia as a letter sent to future generations almost two thousand years ago, so people know why the upcoming loss of human civilization. This unique message contains the state of the Christian religion in those early days when just hatched Christianity. Now we have an opportunity on the basis of this letter to compare and see how we have advanced in their religious feelings in these two thousand years, and how we have become like Christ. It is very important. The events described in the apocalypse, that is the death of civilization, must prove that people know that in their forthcoming death blame themselves, and turn to God in repentance. God is merciful and if he liked us and if we sincerely repent of their terrible sins содеянных maybe God will forgive us and the Apocalypse does not take place, although now everything is going to do so. What kind of sinful actions were peculiar to Christians church during John the Divine, which John must write a letter demanding Jesus Christ:

1. Ephesus - left their first love
2. Smyrna
3. Pergam - the doctrine of Balaam, teaching Nicolaitans
4. Thyatira - Jezebel admits
5. Sardis - dead church
6. Philadelphia -
7. Laodicea on the Lycus - because you are lukewarm, and neither hot nor cold

1. Speaking about his first love, Jesus had in mind the love of the Christian faith, which were believers when opened Ephesus Church.

Subsequently, apparently, this love has faded somewhat, that led to that "light was shifted.

2. Church of Smyrna was a church of Christ, the Church of martyrs.

3. Pergamum was the center of a Satanic religion. Christ told the church: "Do you live where Satan's throne." Followers Vaalama eating food sacrificed to idols and fornication. Nicolaitanes advocated a compromise with paganism and led polyazychesky lifestyle.

4. Christ says, "But I have a few things against thee, because thou sufferest woman Jezebel, who calls herself a prophetess, to teach and to seduce my servants to commit fornication, and there is food offered to idols."

5. Dead church. Refutation we proclaim the Lord Church in Sardis that cause it are dead, and therefore faith exists in name only. The church in Sardis had people not worthy to walk with Jesus in white robes.

6. Church of Philadelphia was the church of Christ, the Church of martyrs.

7. The mild, not cold, and heat. Warm Christians - those who are not against the Lord and not entirely for him ... They want both to love God and the world. Rather, they do not love God and love peace.

In addition, we must not belong to one of these churches, we

still need to know and observe the commandments of Jesus Christ. To do this, click the mouse on the "commandments of Jesus Christ" and see what should be a modern Christian, or even people. I, like the vast majority of people on the ground, not thought much about it. Most people are not religious, although they all go to church and carefully placed candles, considering that this is the duty of the true Christian - what a sad mistake. Even a poll of Israelis confirmed this, most of them replied that they were not religious.

Speaking truth to my shame I must confess that when I recently reviewed the commandments of Christ, realized that Jesus was knocking my door, and I did not

I hear, although my love for him is boundless. And sadly, I have come to the conclusion that the vast majority of people on earth belong to the Church of Laodicea, even regardless of religion. But I do not think this is the reason to destroy mankind. But I may be mistaken.

**Be perfect as your heavenly Father is perfect.**

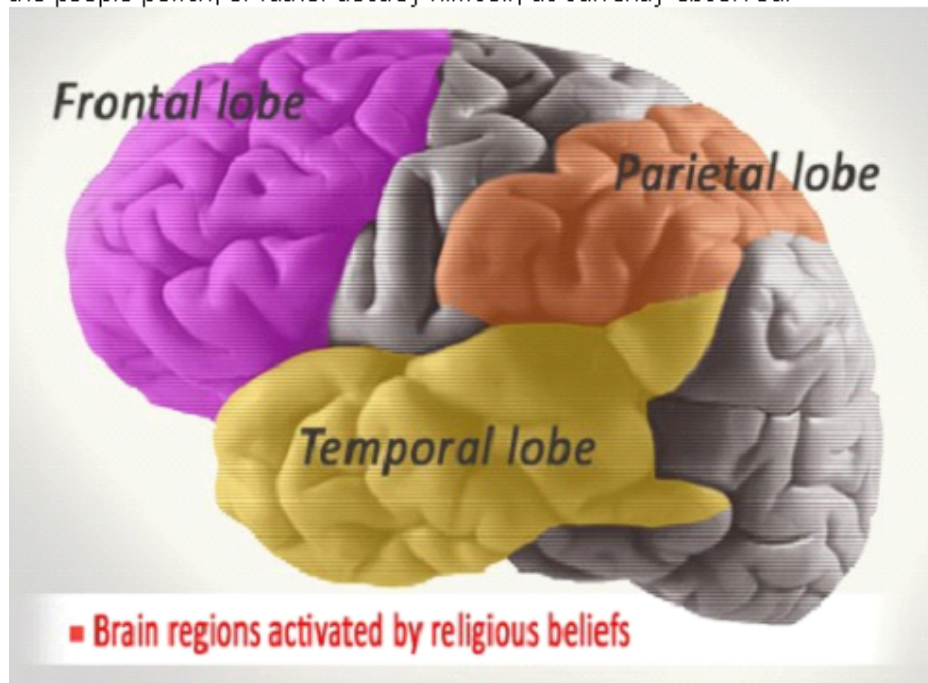

I do not think that now we can make a wish and become perfect as our heavenly Father to get into the kingdom of heaven. This can be done to mankind for centuries, millennia, and perhaps in general it is impossible, as impossible within the life keep the commandments of Christ. We can only strive to do so, as a beautiful and unattainable dream. But Jesus said about it, and he replied that for God nothing is impossible.

Another thing that I want to understand. God created Adam, my grandfather ... proprioceptive and Eve, my grandmother ... proprioceptive and breathed life in them, whether they inhaled the religious feelings, that is, I want to know initially people were religious or not. For myself, I made a very important conclusion. I set myself the question, at what stage of development of human society in the minds of people came religion. Of course not difficult to guess that the answer of this question is. Since God created Adam and Eve, he had them in their brains established religious centers, whose existence is now confirmed:

Recent studies of "God spots" Professor Jordan Grafmana published in the journal *Memoirs of the National Academy of Sciences*, found that some brain areas have been addressed by religious experiences, one of them in the frontal lobe of the cerebral cortex - which is significantly developed in humans - and the other in a more evolutionary backward areas deep within the brain similar to monkeys and other primates. These data support the idea that the brain evolved to be sensitive to all forms of faith, which increases the chances for survival, and show that the brain, in fact, sensitive to the faith in almost anything if there is reason to. Michael Persinger of Laurentskogo University in Ontario found that he could artificially create the experience of religious feelings in 80% of volunteers. (Internet)

Examining the DNA of two thousand volunteers, Dean Hamer found that of all believers in God is the gene VMAT2. It turns except religious centers maker has invested in the human organism gene. So religion is built into our brains!

And so when God created man, he is forever linked him with them, knowing that without his leadership the people perish, or rather destroy himself, as currently observed.

WHAT TO DO? ON THIS PERPETUUM OF questions should give the answer EVERY himself. IS Christ's commandments the one hand (the crown of life) and there is Apocalypse (GEENA FIRE) on the other. Choose! And be with you LORD.

I decoded to the part of the apocalypse, which began, that is, until Chapter 6-8.

And I looked, and its rider, whose name was death, and hell followed with him and given him power over a fourth of the earth - kill with sword and famine, and with the beasts of the earth.

The main weapon to reduce the number of people on the ground by one quarter, it is food containing genetically modified organisms that can reduce fertility, disruption of the ecological balance in the habitat and other environmental problems that arise in the future.

Prophecies of the Apocalypse were written for understanding at the time of the predicted in these

events. Hence, it is not surprising that often the authors themselves are members of the Bible books of the prophets did not understand the significance and meaning of their prophecies. Write about this yourself, Daniel and John the Evangelist (Dan. 7: 15, 16, 19, 28, 12: 8; Open. 17: 6, 7). So, it makes no sense to look for and the means for their understanding in terms of concepts of the ancient world. But the reader should not be surprising interpretation of the ancient prophecies in terms of contemporary concepts. The author of all the prophecies is God, for whom are just as easily talk about the future, as the past.
