

GOD'S LETTER TO HUMANITY

(Rev.12: 3,4), (Rev.20: 1,2,3). It amazes me that John sees a big red dragon in the sky with a surprise, which comes down from heaven, because usually the angels may come down from heaven. Also the John's statement amazes me that after thousands of years Devil will be released again. And I will have to put up with it and find an explanation therefor. One of the beasts came out of the sea, which symbolizes the chaos, formlessness, the human community, human sea. The second beast comes out of the land, that is, straight from hell, and symbolizes the scientific and technical progress. John sees the third beast in the desert, which symbolizes the capitalist society. All of them were formed on the Earth with the help of fallen angels and in their environment. I say "with the help of fallen angels", as in this stage of its existence mankind, is at approximately ninety-five percents made up of them, and the remaining five percents are also angels, but their names are written in the Lamb's book of life. If you ask any pastor, he may confirm that no more than five percent of the faithful will be saved out of his flock. Perhaps the same can be said of other faiths. On the other hand the number of the world's population is seven billion, while the number of fallen angels, in my opinion, is SIX BILLION SIX HUNDRED SIXTY million and corresponds to the figure 666. The difference is also five percent of course if we assume that God's judgments will come soon.

So why, in contrast to animals, the red dragon descended from the sky? I am forced to admit that the dragon, just like the angels descending from heaven, is from God, too, although I feel that it doesn't sound convincing. Before writing this, I once again read my article and concluded that the seven-headed devil, that is, all seven economic formations were planned by the Creator to save the fallen angels being found in the material universe. As I wrote in my previous article, the angels, acquiring knowledge in a parallel universe, move from one level of the universe to another, and so on until the twelfth level, and join with God in order to acquire immortality. But both humans and angels are not the same and there are those ones that, for whatever reason cannot get enough knowledge and gradually descend to the lowest levels of the parallel universe and come to our gross material world, which God created to help the fallen angels return to heavenly kingdom - the parallel universe. I repeat, all seven planned economic formations were designed by the Creator and their description was given to humanity in the form of revelation of our Lord Jesus Christ, so that before the next in turn Apocalypse people discovered the truth about the fallen angels, something that I am doing for you. St. John brought me

to this thought, writing that after thousands of years Satan will be released again. The Lord God had in mind, that after millennia fallen angels, having passed the last seven economic formations, would again create a highly developed civilization. In the seventh chapter, the Angel fallen from heaven, will affix stamps on their foreheads of the righteous, whose angelic consciousness overcame the human mind in the great struggle for survival: (Rev.7: 3,4,9,14). Here one hundred and forty-four thousand people that I think may be priests, are selected from all religious faiths, and the remaining are the humans that observed the commandments of Christ (without even knowing them) and did not get the sign of devil on their forehead or on their hand. All the rest of humanity, made up of the fallen angels who descended from heaven and could not win over the human mind, created the red dragon, which in the mind of St. John have come down to earth from heaven and will not return there anymore. The fallen angels will remain in this material world, which John called "the abyss", "till one thousand years are up" during which mankind will once again form the devil, and create a civilized society.
