

HAPPY  
BIRTHDAY

Another birthday is here for us to celebrate and have some fun.

I would love to be there with you every minute so I don't miss anything. I know that you love horses, too. So, I have picked a card with a picture of a horse on it.

Jesus made some wonderful animals, didn't He. He is as beautiful and glorious as His Creation. In fact, He is even more beautiful than that! Let's spend some thanking Him for all things and telling Him just how very much we appreciate Him and all He has made. All He had to do was speak words and everything was created. Isn't that Awesome!

And He would just love it if before you go to sleep you would take a few minutes and tell Him about your day and do that everyday.

He loves it when you do that! He wants to hear about everything in your life. He wants to have a good relationship with you that grows and grows as you keep seeking His presence.

Happy Birthday, Honey!
