

## Michelle's Story of Her Abortion

I could find no one to help me. Planned Parenthood was a big lie! What happened to me was not counseling! It was a plan to make money off my mother and myself by lying and tricking us at a very vulnerable time. Having sex before marriage is the wrong move! It leads to all kinds of problems. Avoid this by not having pre-marital sex! I realized that my baby would die a horrible death and I knew I would be in pain, both physically and mentally, and I knew this whole thing was wrong!

Planned Parenthood told me nothing about the Saline Abortion procedure but the way it sounded; just the name "Saline", I knew that this experience would be very bad, but I went thru the procedure anyway. The pain of a Saline Abortion was very great! After being injected with the Saline, the pain began; and I felt labor pains of approximately 16 to 18 hours! There is never a moment when the pain stopped.

The medication given to me to help the pain not only didn't work but it caused much vomiting and diarrhea, too, and I felt so very Lonely! I really thought that I loved the baby's father but I don't know if I was just with him because I was desperate for someone to love. He wanted a sexual relationship and I just gave in, thinking I could handle it, but I couldn't. After the abortion I just didn't feel the same about him anymore.

But he wanted to continue to have sex and I was in too much pain emotionally, to do that. So, we stopped seeing each other, and when I did see him, he would curse me out and call me a "baby killer!" He did that two times; one time when I saw him at a party, and another time when I saw him at a bar. I believe he was very hurt to lose a child to Abortion. I made a very bad choice to end the life of my child, and I hope my testimony helps other women decide not to have an abortion.
