

“THE 1ST LAYER OF HEAVEN”

“The turning of the wheels of time for a 1st time”

This is the first layer of heaven that Jesus Christ first revealed himself in. There is a large overhang of a cliff, and it has dark green vines and it's all intertwined, and there are many layers of vines, and a huge circle of green foliage and dense overbrush. There is a beach, and the sand in the beach has layer upon layers of sand that has been eroded and washed up over many, many years. The sand is filled with bones and remains of fish, crabs, seashells and crustaceans, they were all real creatures once, swimming in the ocean fully lush and bountiful and full of energy and boisterous spirits, all with unique beautiful individual colors and patterns and skins, and all of them swam together in a biologically diverse environment, filled with seawater and algae, free to swim around in the sea with their designs unique to gods' magnificent creation. Jesus Christ, the most beautiful, magnificent incredible being in the known universe, and emperor beyond the sea. This Hebrew man was sent by God as atonement for all of Humanity's sins, with his sacrifice he was willing to lay down his life for his friends. He reveals his presence for the first time in a most enrapturing way, making himself known as he quietly and purposefully emerges from a shadowy overhang of a cliff and vines, walking out in a brown robe and a white sash, skinnier and his hair is long and wavy. He is very calm and precise, with deliberate planned movements as he walks out from under the wheels of seaweed and, with his hand placed behind his back, seems to be thinking and planning, every move showing his prowess. He was inside the dense foliage and leaves, and the vines were brushing against his robe. Given to him the power by God almighty, he was behind it all along and softly, noiselessly, steadily walking outside his domain of power and into the fresh ground of the sandy beach, where he meets with his disciples and they have a prayer meeting where all of them convene and talk about what's going on in the world and their lives, and how they can move to a place of purposeful prayer and really be together, for the fresh harvest of new abundant growth in the garden of Christ. They all appear to be there for a purpose with God, and the scenery is the beauty of nature shining through the pebbles on the sand, and there are rocks and pebbles, and it is a very sandy texture with leaves, perfectly suited for the scene.

THE 2ND LAYER OF HEAVEN

“Jesus and his disciples and the beach where they walked in “

There is a sandy beach that had a heavenly sunlight looking down and glimmering and glowing all throughout the beach, and the sand has waves and curves from all the waves from the ocean being crashed down upon it, and the ripples in the sand are like waves on the telling of time and how nature affects time and time effects nature. There is a large mound of sand on a hilly area, and the sand was crystal clear with pebbles and rocks and a very smooth hourglass look and a perfect shade. The sun casts an anointed glow on all the curves of the beachy land. The disciples are nameless, and about a handful of them, 6 or 7, are walking clothed in fine robes satin cloths with generic colors. They are also faceless, so I cannot recognize exactly remember their facial expressions. But they are a fine bunch, gathered like hens to the mother chicken.

There is no dialogue, but you can get a sense of the closeness and companionship they all have with Jesus Christ walking across the gorgeous sunlit beach. Jesus is a most beautiful outstanding vision of a man, and such a fine leader, and an enormous outshining glowing presence with his purposefully folded white robe and sturdy shoulders as he kept his field of vision straight ahead and his hair has a natural healthy sheen with a glow that keeps entrancing. Jesus walks with absolute certainty, and he is still and calm from within, but outwardly he is ever growing and changing, and a fitting image suited for an angel. His gait is sturdy, and he wears brown sandals that provide excellent strength and flexibility Jesus takes the helm, and with his leadership he is first in line. There is a wheel that has green leaves and sand, and a box that turns the wheels of time to transport Jesus into the next realm of heaven. There is fanart on the wheel, of steven universe and adventure time.

“THE 3RD LAYER OF HEAVEN”

“The turning of the wheels of time for a third time”

Jesus Christ is taking the lead, wearing a vivid, lovely flowing white robe full of little folds and creases, and a stunning white shining sunlight throughout all the outside, so it lives inside of him, and his brown sandals that are made of leather, and there are a larger handful of Jesus disciples all wearing fine blue, green, and brown robes and all of them are wearing sandals, such was the style during biblical times back in the days where Jesus walked with his disciples. There is a flat stretch of beach and sandy groves full of pebbles and minerals, and all of the layer of find grained textures of the beach, layers of sand and sediment complied upon layers of deeply embedded layers of sand, complied upon many crabs and crustacean and shellfish and sea crabs. they are looking like an eye spy puzzle, with all different clues and you have to pick the right order in order to find the sequence of events that leads you to find the answer to the puzzle. They are all his disciples, and I suppose when Jesus emerged he had a plan for them all to meet and Jesus exemplifies all his great leadership heroics, and they met on my front porch to have a plan to discuss of what they all wanted to accomplish and what they had aspired to achieve and Jesus was standing in the middle of the circle of people from his clan and all of them were waiting for him to speak, but he stood there placidly almost as if he was predicting what was about to happen He stood there quietly, not having a reaction to this next situation. There was a girl who was about in her twenties, and she had shorts on, and she was a fangirl, and there were all other people surrounding him in a fangirl club. She had a huge Freak out fangirl moment, and asked Jesus to please heal something on her leg, because Jesus was going from place-to-place healing people from their illnesses, and there was bread dropping from heaven after the wheels of time were turned again, and Jesus was standing there on my porch which means he came to my house

“THE 4TH LAYER OF HEAVEN”

“The disciples of Jesus and the bread that fell from heaven”

“THE 4th layer Of HEAVEN “

“The disciples of Jesus and the bread that came from heaven”

There is a great dark big tunnel cave, where all of Jesus Christ Disciples are walking in crowds of tens, hundreds, thousands, hundred thousand, millions, billions of all these figures adorned in green, purple, brown and blue robes and sashes. The perspective was that the cave was huge and there were people higher levels of the cave and lower levels of the cave, and any amount of middle ground in between, and all of them were standing their ground very confidently and with a large sense of being collectively in a group with a divine purpose underneath the heavens, for being humble and dedicated servants for the teacher all crowded around for learning and lessons. Jesus will be teaching a prayer sermon on the biblical perspective of being kind, humble, persevering and teaching moral lessons about character. They all had a sense of being very confident assured as to why they were here, and there was a great crowd among him, and a sense of deep kinsmen ship and fellowship to the lord. Jesus implores peter to, “feed my sheep” John: 21. The bread is falling, and it is the healing for all the people that follow the light, and those who follow the light shall not walk in darkness. Jesus is the answer for all of humanity’s prayers for Jesus was the embodiment of the lord and savior for all of humanity, and his sacrifice of giving his life up on the cross was the atonement for all humanity’s sins, and through him the world was saved, for he is the prince of peace and the bread of life, and he is the most amazingly compatible, loyally esteemed lord and savior. The bread of life whose harmony restores balance and gives peace to the world and redeems and heals the sinners. We all who have accepted gods message have been made new and rejuvenated and saved by lord and savior of all creation. Jesus then leads his faithful servants to the sidewalk and the walls that have beautiful, lush vines growing on them and they all follow him, now at his fullest and maximal capacity to heal and the most masculine broad shoulders and such a healing presence and a heavenly light and golden glow at the end of the tunnel, where all the bread fall and heals people from all around the world globally, and the wheel of time helps it fall a everywhere. “And I suppose if there were an infinite amount of books they could not contain all the things that Jesus did. “John 21:
