

"THE FOLLOWING OF THE DISCPLES ON THE BEACHES"

"Obey the commands, and lo, I am with you even to the ends of the earth"-Mathew 20:28

Jesus Christ is on the magnificent white clear sand on the beaches where he leads his disciples, there are thousands of them, all dressed in green, purple, brown, and sashes adorned on all their heads, and they all wear sandals.

There is a beach that has sand and seagulls, and vines. Among the vines that are green and dark, Jesus emerges from them. There is a darker shade around the vines and plenty of foliage and leaves around in circles. Jesus emerges, and there are many people crowded around him, presumably his friends or disciples and they meet up with me, and my friends.

There is a wheel that has steven universe fanart on it and it was grassy and vines all around it, and when the wheels turned it was like turning the wheels of time, and there were a couple pieces of nice fanart.

Jesus was in the lead, with his long creamy milky white robe and blue sash, with sturdy sandals and a firm calm disposition taking the helm of the beach following behind him.

All the followers stood readily behind him, and there was sand and seashells, and crustaceans in the buried folded parts of the sand, and there were fish bones and remnants of crabs while the beach tide rolled in and rippled on the waves of time. And the fresh air with sea breeze rolled in and filled the lungs with new sensations of being born again in every sense of the word, and it was all coupled with beautiful clouds and seagulls and grassy vines growing in unexpected places.

Time went by and Jesus Christ walked with his disciples to the ends of the earth, literally and figuratively. in a sense that this scene encapsulates the bible verse and takes you to the ends of all time and creation when Jesus took his followers and walked with them, thousands of them. This also shows deep respect and admiration that Jesus has for his people, if he was willing to stay with his people throughout all the problems and situations life can have to offer. The disciples were more than obliged to follow him, for they knew that this was the son of God!

Then, the wheels of time were being turned to signify growth and change in peoples lives and adulthoods, and bread dropped on the wheel to heal people's injuries and sickness and ailments. The people showed up and every single one of them was healed by the grace and glory of God. These people all came from different places around the world, too. there was a man from Connecticut, and someone from somewhere completely different around the globe.

This is a beautiful example of all the people around the world that my father has managed to humbly serve and teach gods kingdom to people's lives and help them out. This bread that was falling on the wheel is god's healing gift of his sacrifice so that all of humanity can reunite with him and have our new spiritual bodies. The bread is like manna from heaven, and whomsoever partake of this bread shall not hunger, for this is the bread of eternal life. For Jesus is the bread of life, and gods gift of healing and showing love and being kind and loving thy neighbor as thyself and putting your best foot forward as Christians in the world. and daily life.

Then, millions of Jesuses 's disciples, not just thousands, gained an even greater following as more and more numbers filled in, god's purpose is for me to serve god's kingdom by helping my wonderful father with his tracts business and spreading the word. I am happy and thrilled to be telling you how blessed and lucky I am to help and serving.

There were millions, maybe even billions at this point, of his followers in this tunnel, and at the very end was the lamb and the son of God, our lord and savior, prince of peace, restorer of health, healer, a miracle worker, Jesus Christ. There was a beautiful golden light at the end of the tunnel and Jesus was their worker of miracles, with a green shirt and long beautifully light brown wavy hair, and the bread was finished dropping. There was another wheel of times to be turned and God was showing me that there were an infinite number of layers you can travel spiritually in heaven. There were all these windows open, and everything was incredible. I could see him walking there with his green robe and sandals, and the golden light was the new window to travel to new realms and plains of existence that we never even knew existed. Praise the lord!
