

SAMMY'S ABORTION

Six years ago, I had an abortion that was performed by Dr. Tiller. I was only 19 years old when I was convinced by my boyfriend and his mother that having an abortion was my only choice. My boyfriend's mother was the judge in the town where I lived, and I was told that my child would be taken away if I didn't do it. Later I found out that she (the judge) is a Post-Abortive.

My boyfriend took me to the clinic and I told him repetitive times that I didn't want to do it, but he insisted that this was the only option. The last thing I remember saying was, "NOOOO!" and then I woke up Empty and Alone!

I became severely depressed and erratic, and full of hate, and anger; and I was committed to a psychiatric hospital by my boyfriend's mother. After my release I continued to self-mutilate and I attempted suicide multiple times.

My relationship with my child's father ended as he left me for another woman with two children! I never felt good enough for him, never pretty enough, never smart enough, never skinny enough, not even good enough to have his child. I haven't spoken with him in over three years.

My life since the abortion hasn't been easy, but I have found forgiveness and comfort and peace in Christ. Because of God's mercy I have been able to forgive and love myself. I have been speaking out and telling my story to several high schools. I am 24 years old now and a nurse...But not a day goes by when I think do not think about the anguish that abortion causes women!
