

## *Shifting Sand*

*Upon life's beach your feet may stand  
Amid the waves of shifting sand  
The waves of life so gentle and meek  
Your feet beneath you begin to sink*

*At first it feels good and seems so serene  
The sand that's shifting beneath your feet  
The waves of life so harmless it seems  
Slowly and deeper you continue to sink*

*You thought you could step out at any given time  
But this seduction of sin has a firm grip on your life  
The more you struggled the deeper you go down  
Shifting sand beneath you sin has you bound*

*Oh do not walk upon life's shifting sand  
And fear not the storms of life that rage  
For safe and secure you can firmly stand  
Forever upon the Solid Rock of Ages*

*Forgive my sins Lord that grieves your heart  
And help me to rise from life's despair  
Renew my heart with the grace I once knew  
Help me to put my trust in the only God of truth*

*Thank you Lord Jesus for salvation full and free  
For shedding your blood on the cross of Calvary  
So I might receive God's great Love, Mercy and Grace  
And forever give you all the Glory, Honor and Praise*
