TO MAKE THE BEST TRACTS

1. After you press the .pdf print button, but before you print, if the .pdf will let you, change the size from "fit", to "actual size". If it won't let you, it will help if you can enlarge your tract master by up to 105%.
2. Print two copies, and cut one in half across the page, just above the descriptions, and place it over the other tract's descriptions with the bottom of both tracts in the middle of the page, and the titles on the top and bottom of the page, line up the center columns, trim the borders if necessary, and tape it there. This is you tract master copy. Use it to print a double sided copy, which you can cut into eight tracts.
