Is Evolution a theory That has failed?

Darwin founder of evolution

Is there any evidence for the
Truth of evolution?

If evolution is not true
Then what theories are left?

How did all of what we
see today come into existence
if it weren't for evolution?

**Darwin stated that evolution
Would be proven by
Paleontology..**

Consider the evidence

- 1) No fossil evidence has ever been found to prove that there was transitional creatures or plants.
- 2) All fossil evidence appears to have happened suddenly instead of gradually as evolution suggests.
- 3) All the fossil evidence that was suppose to prove evolution has proven to be false.
