THREE BEASTS OF THE REVELATION OF ST. JOHN THE THEOLOGIAN

THE BEAST WHICH CAME OUT OF THE SEA

"And I stood upon the sand of the sea, and saw a beast rise up out of the sea, having seven heads and ten horns, and upon his horns ten crowns, and upon his heads the name of blasphemy. And I saw one of his heads as it were wounded to death; and his deadly wound was healed: and all the world wondered after the beast "(Chap.13: 1,3).

If St John imagines the seven-headed dragon, in the form of the complex of the seven economic formations or in the form of beast coming out of the sea; it presents itself the armed forces that existed in all seven economic formations, and which played a crucial part in the shaping of these formations. The Sea, from which comes out the beast symbolizes chaos, formlessness, the human community, human sea. It were the humans that created all kinds of weapons in the course of the shaping of all economic social formations, even weapons of mass destruction. The blasphemous names upon the heads of the beast present themselves some names that characterize the formations, for example - slaveholding formation. The ten horns on the head of the beast symbolize the number of states on the ground, and the presence of crowns on its horns means that the animal has already developed a nuclear weapon of mass destruction and because of this animal was released. This means that the number of fallen angels on earth has increased a lot, and their subsequent activity can destroy human civilization, as it is directed against the human society. One of the heads of the beast was wounded to death. During the fifth, socialist formation, the rule of exploitation of man by man was repealed, and it struck the beast a telling blow, and therefore, one of his heads that corresponds to the socialist formation, was wounded to death. However, the socialist system began to collapse and the wound started to heal. There is some other explanation therefore.

But in the days of the voice of the seventh angel, when he shall begin to sound, the mystery of God should be finished, as he hath declared to his servants the prophets. (Chap.10: 7).

And the seventh angel sounded; and there were great voices in heaven, saying, The kingdoms of this world are become the kingdoms of our Lord, and of his Christ;

and he shall reign for ever and ever. 18 And the nations were angry, and thy wrath is come, and the time of the dead, that they should be judged, and that thou shouldest give reward unto thy servants the prophets, and to the saints, and them that fear thy name, small and great; and shouldest destroy them which destroy the earth. And the temple of God was opened in heaven, and there was seen in his temple the ark of his testament: and there were lightnings, and voices, and thunderings, and an earthquake, and great hail ". (Chap.11: 15, 18,19)

And in front of the eyes of the entire universe the the Last Judgement began over the souls of the dead and the living Gentiles in the air that trampled the holy city - the Christian world for two thousand years. And all the fallen angels that used to be in the bodies of the Gentiles were judged by our Lord God, and that's why a wound was formed up upon one heads of the beast.

Dragon created a highly developed civilization, ended its mission on earth and surrendered its power unto the beast. This means that from now on the states will be governed only by armed forces and other security agencies. And this is true, the presidents of all countries since the beginning of the twentieth century are considered the supreme commanders of the armed forces.

THE TWO-HORNED BEAST, COMING OUT FROM THE EARTH

"And I beheld another beast coming up out of the earth; and he had two horns like a lamb, and he spake as a dragon." (Chap.13: 11).

This was the beast of scientific and technological progress, and his two horns were the science and technology. The science and technology progress makes all the people living on earth worship the power/security agencies and fear them as they have so many weapons that can for several times destroy all life on earth.

"And he doeth great wonders, so that he maketh fire come down from heaven on the earth in the sight of men," (Chap.13: 13).

The fire is fundamentally different from other phenomena of the material world. It comes from heaven with the envoy of higher powers, and then it is unbridled and destructive. At the same time it is possible to obtain, maintain and direct it. The second beast, that is, the technological progress will do its best for all the people to obey the power structures, as it is thanks to the fire, that is, the science that all the kinds of weapons are created and perfected, and science is from *the sky by its origin*.

"And he had power to give life unto the image of the beast, that the image of the beast should both speak, and cause that as many as would not worship the image

of the beast should be killed. And he causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads: And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name. Here is wisdom. Let him that hath understanding count the number of the beast: for it is the number of a man; and his number is Six hundred threescore and six. (Chap.13: 15,16,17, 18). "

After the formation of an advanced civilization, that is, during the formation of Armageddon, anyone that worships God, and not a beast, will be killed. And the number of the beast is the number of fallen angels on earth which is six billion six hundred and sixty million. The embryos of all of these fallen angels not having evolved in human bodies on earth and not having become independent divine beings, return to earth to experience the second death.

THE SCARLET COLOURED BEAST OF THE DESERT

"So he carried me away in the spirit into the wilderness: and I saw a woman sit upon a scarlet coloured beast, full of names of blasphemy, having seven heads and ten horns. And the angel said unto me, Wherefore didst thou marvel? I will tell thee the mystery of the woman, and of the beast that carrieth her, which hath the seven heads and ten horns. The beast that thou sawest was, and is not; and shall ascend out of the bottomless pit, and go into perdition: and they that dwell on the earth shall wonder, whose names were not written in the book of life from the foundation of the world, when they behold the beast that was, and is not, and yet is. (Chap.17: 3,7,8). "

The desert, where St. John sees the beast is actually an inhabited imaginary environment where there are the fallen angels according to the description of St. John, the woman and the beast. The woman is the capitalism and the beast presents itself the septenary capitalist relations, which are characterized by the exploitation of man by man in all economic formations. I think the most primitive form of capitalism and capitalist relations were born at the end of the primitive - social economic formation, when the exploitation of man by man started. And the horns of the beast represent the peoples. John doesn't reveal the mystery of the woman and the beast in such a way to fully be understood. He used to live during the reign of the second head, that is, the slave-holding system. John does well in exposing a text with the help of symbols in spite of the fact that it is deciphered with difficulty.

"And here is the mind which hath wisdom. The seven heads are seven mountains, on which the woman sitteth. And there are seven kings: five are fallen, and one is,

and the other is not yet come; and when he cometh, he must continue a short space. And the beast that was, and is not, even he is the eighth, and is of the seven, and goeth into perdition. (Chap.17: 9,10,11). "

I will be wise, as is required by St. John the Divine, to be able to decipher this piece of work, which seems a little complicated. The seven heads or seven mountains on which the woman sits present themselves the capitalist relations that have sevenfold structure. The Beast is considered to be septenary capitalist relations, which during the fifth, i.e. the socialist economic system disappears due to the fact that the exploitation of man by man is canceled. And the seven kings are the seven formations taken separately:

1. The primeval, 2. Slaveholdnig, 3. Feudalistic, 4. Capitalist, 5. Socialist, 6. Globalistic and 7. Armageddon Formations. Of these five have passed that is have already been realized on earth and the humanity was transferred into the globalization formation, but Armageddon formation has not come yet, and when it cometh, it won't exist long. The beast presenting itself the septenary Capitalist Relations is the eighth out of the seven, which presents itself the capitalist formation and will be destroyed together with the capitalist system. That's what I'll tell you about in my next article.
