

## TESTIMONIES ABOUT TWO ABORTIONS

**Mae:** I was told “that I would be out for 8 minutes and I would feel only a little discomfort afterwards” (They lied! It ruined 10 years of my life!) Surgery...”that’s what they call it!”) They put us on gurneys and put us through like cattle on a conveyer belt! So sad!

They never explained anything about the procedure or let me see the baby. They gave me no alternatives and never mentioned how killing my baby would affect me emotionally.

**Tewannah:** I was 18 when I got pregnant. At three months pregnant I had an abortion. About seven years later I was listening to a Christian radio broadcast. It described an unborn child during an abortion procedure. It talked about the baby’s frantic attempts to escape the tools of the abortionist, and how the child’s heartbeat accelerated as it sensed apparent danger. My heart broke! I was so overcome with grief! How could I have taken the life of my unborn child?

About seven years later I married a wonderful man. Five months later, surprise! I got pregnant! I had always longed to be a wife and mother. Now my dream was going to come true! The pregnancy was going well but 21 1/2 weeks into my pregnancy I went into labor. I gave birth to a little boy who lived only three hours. The doctor said that there was nothing that he could do. He was too small. We named him David Nathan. I had imagined us feeding the ducks, and playing in the park, but instead I was saying goodbye.

It talked about the baby’s frantic attempts to escape the tools of the abortionist, and how the child’s heartbeat accelerated as it sensed apparent danger. My heart broke! I was so overcome with grief! How could I have taken the life of my unborn child?

About seven years later I married a wonderful man. Five months later, surprise! I got pregnant! I had always longed to be a wife and mother. Now my dream was going to come true! The pregnancy was going well but 21 1/2 weeks into my pregnancy I went into labor. I gave birth to a little boy who lived only three hours. The doctor said that there was nothing that he could do. He was too small. We named him David Nathan. I had imagined us feeding the ducks, and playing in the park, but instead I was saying goodbye.

In the book "What to expect when You're Expecting," I came across information that said a miscarriage in the fifth month could be due to previous abortions. It said that I was to understand that there was a probability or possibility that I might not go on to have children! That meant I might not be a parent! Women need to know the facts regarding abortion. If I could share my story, then others might be spared the heartbreak that I have had to go through.

**If we remain silent, the other side wins!** There are many more like me. If more people come forward and tell their story, the truth can't be denied! And confession is good for the soul!

Below is part of the information from the "Release Form: that Tewannah signed for her abortion:  
Ambulatory Surgical Facility  
Consent to Operation,  
Anesthetics and Other Medical Services  
I Authorize the performance upon Tewannah Harper of the following operation: Therapeutic Vacuum Curettage.

\*\*\* It has been explained to me, and I am aware, that I may be sterile as a result of this operation, and that I may no longer have menstrual periods, although no such result is warranted or guaranteed. I know that a sterile person is incapable of becoming a parent, and in giving consent to this operation I have in mind the probability or possibility of such a result.
