

What Good is Money?

An old lady lived all alone in New York City. She was very rich, but she hid all her money and never used it to help anyone, not even herself; and one day the old woman died because she didn't even buy enough food for herself;

and her neighbors paid for her funeral, because they thought that she was very poor. When the police searched the woman's house, they opened a chest of drawers, and it was full of money and bank papers, and in a closet they found some boxes full of money!

What good did it do the woman to have so much money? Her relatives got it all when she died.

The Holy Bible says, "We brought nothing into this world, and we can take nothing out." 1 Timothy 6:7.

What God gives is just for a while, and He wants us to use it in good ways. When God gives us more than we need, He wants us to use it to help others. Children as well as grownups need to learn how to spend money. Many people love money and many waste it carelessly on themselves.

We must remember that anything we have been given by God is given to us only for a short time while on this Earth, and it should to be spent wisely. Then we have the secret of how to enjoy God's gifts. God also wants us to be thankful and content with what He gives us; and we will be happy, just by knowing that we belong to Jesus and have Him loving and guiding us as we go along in with Faith and Trust in Him each day.

Let's Pray: Lord Jesus, Thank you for all that you give us in our daily life, and help us to make a practice of giving to others, because when we give, it is the same as if we gave it to You. And what we spend on ourselves, help us not to spend it foolishly, and to really take time to think about whether we truly need it in our life before we buy it and you always give back in Your own way whatever we give.. The Holy Bible says that, "it is better to obey then sacrifice." Lord, please help us to obey Your leading as we go from day to day, in all things. Amen.
